

Product Safety Recall

**Zoggs Fogbuster Anti-Fog & Lens Cleaner
Batches 305R, 105R, 105N & 301N**

Supplied 1 January – 14 May 2018

Defect: The product contains acetaldehyde and possible propionaldehyde, which will cause irritation to the eyes if not washed from the lenses properly.

Hazard: May cause temporary discomfort and short-term eye damage.

What to do: Consumers should stop using the product and return it to the place of purchase for a refund. Avoid product contact with the eyes and skin. If contact is made, consumers should wash their eyes with clean/clear water or saline solution. Rinse glasses thoroughly after use with the product.

Contact details: For more information, contact Zoggs by phoning 02 9453 2000, emailing sales@zoggs.com.au or visiting <https://zoggs.com.au/>
